

Selected Projects

Some of the projects on which PDCOR has worked upon are:-

1. Development of Project bank for solar power projects in Western Rajasthan
PDCOR has done a detailed study including solar resource and infrastructure assessments of the various potential locations where utility-sized solar power plants could be installed in the western and north-western regions of Rajasthan.

2. Detailed Feasibility study for developing a 10 MW solar energy based power plant in Rajasthan

PDCOR has conducted a detailed feasibility study covering the technical, financial, environmental and regulatory aspects to establish the viability of setting up a 10 MW solar power plant in Rajasthan.
